Q&A: What do we provide for you to work with

Written by Administrator Tuesday, 15 September 2009 08:01 -

Referring to the recently asked question, we will have computers only in the part of the workshop that takes place in Krakow (with an Auto-Cad program). We encourage you to take your laptops with you. The net access is provided in our both studios? in Oswiecim and Krakow. We provide the paper, model materials, etc. Also, we're paying for printing of your final boards.
